ENDOWMENT LEVELS

Endowed funds are never spent. Instead, they're invested. And it's the earnings from these investments that go to help the programs you choose to support. That means each gift designated for endowment provides permanent financial support.

When you create an endowed fund, you give the endowment your name or the name of a person or organization you wish to honor.

In general, endowments are usually created for a specific purpose under a specific name, with a minimum amount required to establish a new endowment. However, on occasion, additional, smaller gifts may generally be added to an existing fund (e.g. endowments established specifically for annual donor contributions). If you have a question about making a gift to an existing endowment, please email us at desarrollo@sagrado.edu or call 787-728-1515 Ext. 1207.
